

Pre-hoarding Intervention

A fast, affordable service for seniors

Angel of Mercy Services was created to provide top notch service and fair pricing. Unfortunately the biohazard cleaning industry is built on taking advantage of people in an emergency, by charging thousands for a few hours of work. We refuse to let you suffer because you cannot afford help. So we provide a full 8 hour day of resolving dangers in the home. All our premium services, equipment and skills are included for unheard of flat rates prices:
