

Pest Control Services

Angel of Mercy Services

Our founder, Justin Kufahl, grew up on a farm near Augusta, Kansas. He was active in 4-H and was the state champion in Entomology (the study of insects). Spending his childhood chasing bugs, hunting and raising livestock was great training for the situations we commonly encounter now.

We are constantly adding new services, equipment and skills to better serve our customers. If you have an infestation of rodents, fleas, bed bugs, mosquitos, termites, cockroaches, spiders or other pests we can help. Getting rid of pests starts by cleaning up. We eliminate food, water, nesting materials, hiding places and other factors that attracted the pests to begin with. However, sometimes we need to go that extra mile to kill remaining pests or prevent a re-infestation.

- Need a stray cat trapped?
- Have venomous spiders in the basement?
- Want help prepping for a bed bug treatment?
- Cockroaches took over your kitchen?

(316) 775-8302

justin@angelofmercy.net

Pricing: Subject to the level of severity and effort required. We are not a pest control company, but routinely find and kill pests, without spraying chemicals everywhere or charging inflated prices.

6505 E Central Ave, Ste 252

Wichita, KS 67206
